### *Human Development Research Review: Aims and Scope*

HELP’s Human Development Research Review (*HELP Reads*) aims to expand awareness of topics in human development, particularly social epigenetics, social determinants of health, socio-emotional learning, Aboriginal children and youth, and family policy. *HELP Reads* connects health academics, advocates, and professionals with online and publicly available research, news, and information. This review focuses on listing articles relevant to human development research activities at HELP. The review accepts and welcomes contributions provided they meet *HELP Reads* standards. This review is not official or peer reviewed. It does not cover all research, news, and information, and HELP is not responsible for the accuracy of the content from media or databases. How to access the items? Click on the link related to each entry and it should take you to the item. Not all links are open access; some are abstract links where paid journal subscription is required. HELP Reads is posted monthly; please see: [www.earlylearning.ubc.ca/library/citations](http://www.earlylearning.ubc.ca/library/citations).

## EDITOR PICKS

### Associations between School Readiness and Student Wellbeing: A Six-Year Follow Up Study

T. Gregory, E. Dal Grande, M. Brushe, D. Engelhardt, S. Luddy, M. Guhn, A. Gadermann, K.A. Schonert-Reichl & S. Brinkman

*“The present study explored the association between teacher-rated school readiness across five developmental domains (physical, social, emotional, language and cognitive, and communication and general knowledge) and four aspects of student wellbeing.”...more*

### Orienting child- and family-centred care toward equity.

Alison Gerlach (right - Honorary Research Associate, Human Early Learning Partnership), Colleen Varcoe

*“This week on The House, an infection control specialist warns of pandemic preparedness in Canada. Deputy Prime Minister Chrystia Freeland talks about how the government is preparing for a coronavirus pandemic, and whether it's possible to develop oil and gas projects in a time of net-zero. Plus, Paul Kershaw on Generation Squeeze...”*

### Social determinants of playing outdoors in the neighbourhood: family characteristics, trust in neighbours and daily outdoor play in early childhood

Parent N, Guhn M, Brussoni M, Almas A, Oberle E.

*“...Thirty-five percent of children in this study met recommendations of playing outdoors every day.”...more*

### Effects of teachers' emotion, regulation, burnout and life satisfaction on student well-being

Summer S Braun, Kimberly A.Schonert-Reichl, Robert W.Roeser

*“Teachers' emotion regulation skills and life satisfaction were associated with students' well-being” .. more*
